

... mein erstes Boot

... mein erstes Boot

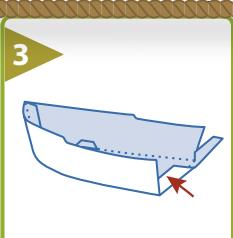

## 9 Schritte zum eigenen Boot:

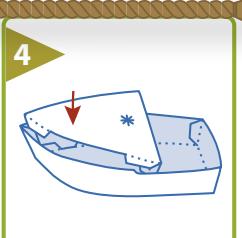

1. Glue tabs on sides of hull

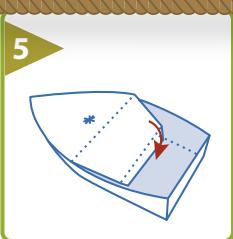

2. Glue front tab to other side

3. Glue back tabs on hull to sides

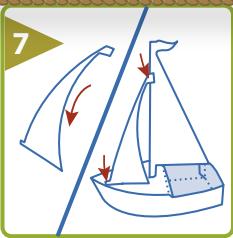

4. Glue right tabs of deck onto hull, followed by left tabs

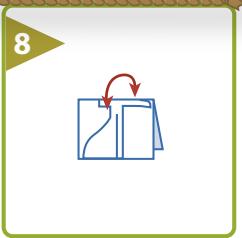

5. Fold tab down and glue to the bottom of hull

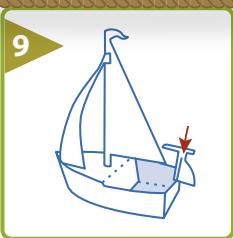

6. Fold the pole of mainsail, glue down tab, then place in deck hole

7. Curve jib, glue back of top tab to area marked on mainsail. Slip bottom tab between deck and hull, glue in place

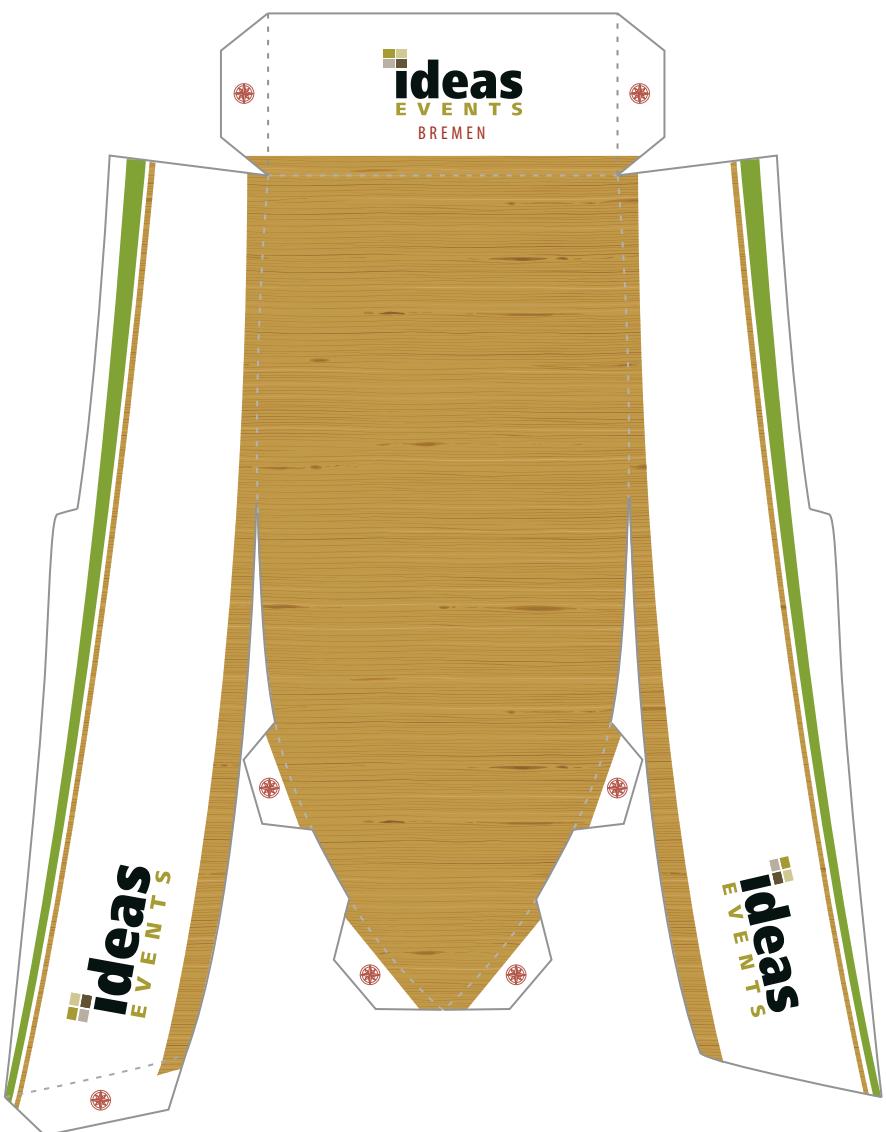

8. Fold rudder in half, glue, and cut on solid lines

9. Slide rudder piece onto back of boat
